Note

Nursing is a regulated profession. The training, licensure, and practice of nursing are subject to federal and state statutes, rules, and regulations. In addition, each hospital may have rules or policies. A student's eligibility for admission or continuation in MTC's Nursing program is subject to the requirements of, and compliance with, all applicable statutes, rules, regulations, or policies (including a physical exam).

Prior to or during acceptance into the Nursing program, training, licensure, or employment as a nurse, each individual will be subject to a background check including, but not limited to, an analysis of fingerprints and review of prior criminal records. The submission of any false information to MTC or any federal/state agency shall be cause for immediate dismissal from the Nursing program.

The Ohio Board of Nursing reserves the right to deny admission to the National Council Licensing Examination-Registered Nurse (NCLEX-RN) if an individual has felony, certain misdemeanor, or drug-related arrests.
