

**Marion Technical College  
School of Radiography  
OBSERVATION VALIDATION**

Marion Technical College applicants to the School of Radiography are required to observe in an Imaging Department prior to entrance into the program. A minimum of nine (9) hours of observation must be completed over a three day period (three hours maximum each day). Student must observe a Radiographer at least seven of the nine hours. Minimal observation time may be counted within the seven hours in the following areas: Mammography, Computed Tomography, and mobile radiography. This does not include observation time in: Radiation Therapy, Sonography (Ultrasound), Magnetic Resonance Imaging (MRI), Angiography, Nuclear Medicine. Observation hours must be completed at a hospital or outpatient facility. Observation in a doctor's office does not fulfill this requirement. Additional hours may be observed to obtain additional admission points.
