

Attend Class Once A Week & Earn A Degree

Adult Student Accelerated Program

BUSINESS MANAGEMENT

"The name of the program says it all, It's set up for the adult student who may have to juggle work, family and school. It is at an accelerated pace which helps keep you better focused on the tasks at hand. While only attending class one night a week, it affords you the opportunity for an education while being able to balance other responsibilities. I'm not sure I would have made it going the traditional route, The ASAP program is the best choice for the working adult, and MTC is the best place to do it."

*Tracy Schilling,
2015 Graduate*

Cohort learning provides several advantages to the learning experience:

- ▶ Students take one course at a time
- ▶ Designed for the working adult
- ▶ Learn with the same group of students
- ▶ Develop lasting relationships with cohort members
- ▶ Receive support and encouragement from cohort members and faculty
- ▶ Develop knowledge and skills progressively throughout the sequence of courses
- ▶ Graduation date is set at two years from the start of the program

Here's what students are saying:

I feel like the entire staff at MTC is behind me pushing me forward saying, "You CAN do it!"... and the class collectively feels like, "We WILL do it!"

- Tonya Gordon

The ASAP Program is a perfect way to get your degree while still working a full-time job. As an older student, I was so impressed with all the help provided and am having the time of my life. You're never too old to get your degree!

- Sylvia See

"I decided one day that the time was right to go back to school so I enrolled in ASAP. It's been the best choice to accelerate my education and my career!"

- Nicki Jones

"I wouldn't have finished college without ASAP! Taking one class at a time was a BIG selling point for me. My MTC education landed me my current job making double what I had made without a degree."

- Kailee Seckel
