Guided Pathways – Transfer Pathways Charter

Mission and Objectives

Mission: To establish impactful transfer partnerships and degree pathways that support student success through improved processes, communication, marketing, and advising

Overarching Goals

- Identify strategic partners and build more pathways
- Create consistent process for establishing/renewing agreements – internal communication
- Increase awareness and visibility of transfer pathway options
- Increase number of students in transfer pathway programs and number of students completing a bachelor's degree after transferring

Specific Project Objectives:

- Review existing agreements and partnerships – formal and informal
- Identify key partners and gaps/opportunities in offerings
- Establish a "single point of contact" for coordinating transfer activities (with support from Transfer Team)
- Develop streamlined, consistent process for initiating new partnerships and maintaining/renewing existing partnerships – establish workflow and identify who does what
- Website enhancements – academic programs (transfer options by program/pathway) and transfer advising (partner profiles, programs by institution)
- Create marketing materials and advising aids
- Submit OGTP templates for additional majors
- Create full 2+2/3+1 degree maps for partner programs
- Centralized repository for agreements and advising documents (SharePoint)

Success Criteria (in progress):

- Employees and students can easily find transfer information
    - Sharepoint repository for agreements and advising documents
    - Create degree maps for OGTPs and partner programs
    - Website resources available to students
- Submit all possible existing course for TAG/OT36, add x new OGTP pathways by_____
- Articulation agreement process in place that is followed by all
- Determine gaps in student transfer needs
- Better tracking of student transfer goals- follow up data
-

Team Members

Name	Title	Expertise/Role on Work Group
Laura Emerick (Co-Chair)	Executive Director of SSE	Oversee advising ("home" of outbound transfer), knowledge of ODHE transfer policies, OGTP

		coordinator, best practices, strategy – what needs to happen
Lindsey Knapp (Co-Chair)	Science Faculty	Knowledge of ODHE transfer policies, applied for grant for increasing STEM transfer (pending), has developed new OT36 science courses, serves on OT36 natural science panel and A&P working group, interest in building more science OGTPs
Brandy Page	Assistant Director of Advising	Transfer coordinator - "point person," primary transfer advisor
Tyler Maley	Director of Math and Natural Sciences	OT36/TAG/CTAG Coordinator; knowledge of ODHE transfer policies, A&S Director
Jason Tingler	History Faculty	A&S Faculty, has developed new OT36 courses and interest in building more social science OGTPs
Kristi Butler	Director of Career Services	Knowledge of majors and career pathways
Cal Morris	Director of CCP	Significant AA/AS and transfer population, marketing transfer pathways for conversion to general
Mandy Knight	Academic Advisor	Primary advisor for general AA/AS students, previous transfer coordinator and CCP advisor
Tony Box	Director of Admissions	Marketing transfer pathways as a recruitment tool, CCP conversion

Responsibilities

Co-Chairs: Provide strategic vision, lead meetings, assign tasks and deadlines to members

All Team Members: Attend meetings, complete assignments by deadlines, provide timely feedback and communication, represent workgroup in daily conversations

Communication

- Work group meetings: Every other month to present progress, determine next step, and assign tasks (July, September, November, January, March, May – subject to change)
- GPSC meetings: Every other month meetings to present progress and get feedback (August, October, December, February, April – subject to change)
- College-wide meetings: Provide updates at all-college meetings and via Marion Tech Minute monthly newsletter
- Ongoing communication: At least monthly check in emails and/or Teams to check on individual progress for assigned tasks, updates, and gather feedback
