

ASAP

Adult Student Accelerated Program

Attend class once a week and earn a degree!

Cohort learning provides several advantages to the learning experience:

- ▶ Students take one course at a time
- ▶ Designed for the working adult
- ▶ Learn with the same group of students
- ▶ Develop lasting relationships with cohort members
- ▶ Receive support and encouragement from cohort members and faculty
- ▶ Develop knowledge and skills progressively throughout the sequence of courses
- ▶ Graduation date is set at two years from the start of the program

Here's what ASAP students are saying:

It's set up for the adult student who may have to juggle work, family and school. It is at an accelerated pace which helps keep you better focused on the tasks at hand.

-Tracy Schilling

I feel like the entire staff at MTC is behind me pushing me forward saying, "You CAN do it!"... and the class collectively feels like, "We WILL do it!"

- Tonya Gordon

The ASAP Program is a perfect way to get your degree while still working a full-time job. I was so impressed with all the help MTC provided and am having the time of my life.

- Sylvia See

"One of the best decisions I ever made was to return to school and work on my degree. However, with a busy schedule of 3 kids and as a small business owner, where could I find this perfect fit? I was fortunate to have found that fit with the ASAP business program at Marion Technical College. The skills that I obtained from MTC gave me a great foundation and the confidence to further my education to obtain a bachelor's degree from Franklin University."

-Amy Holloway, 2015 Graduate
