Dear Prospective Medical Assisting Student:

Thank you for your interest in the Medical Assisting (MA, MA-ATS) Program at Marion Technical College. The MA program is limited enrollment which means we accept a limited number of applicants to enroll in the technical course sequence each fall term.

As a Medical Assistant (MA) you will have an exciting, challenging and dynamic career. Medical Assistants are the only allied health professionals specifically trained to work in ambulatory settings such as physician's offices and clinics. Medical Assistants are trained to perform administrative and clinical procedures. Medical Assisting continues to be one of the fastest growing occupations in healthcare, with a faster than average growth outlook, according to the U.S. Bureau of Labor Statistics Occupational Outlook. For 2015 our graduates have a 100% job placement and certification exam pass rates.

Marion Technical College strives to maintain the highest quality in our training program. Technical courses are taught on campus and are complemented with training at a practicum site. Our program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) on recommendation of the Medical Assisting Education Review Board (MAERB) and will prepare you to take a national certification exam through American Association of Medical Assistants (AAMA).

This MA Admission Packet will guide you through the program admission requirements. The packet contains:

1. MA general information
2. MA admission information
3. MA Program Application
4. Confidentiality Agreement
5. Criminal Background Disclosure and Ohio Revised Code Disqualifiers
6. Essential Program Requirements-Technical Standards
7. Educational Research Consent

Please feel free to contact me if you have questions, need further information regarding the program, or wish to schedule an advising appointment.

Sincerely,

Peggy Smith MEd, CMA(AAMA), MLT (ASCP)
Director, Medical Assisting Program
Marion Technical College
smithp@mtc.edu
740-386-4178
Marion Technical College Medical Assisting Program
MA General Information

The following information is provided to better acquaint you with the demands and requirements of the MA program at Marion Technical College. Please read this information carefully.

**MTC General Admission:** Details of the general admission process can be obtained online at [http://www.mtc.edu/Admission/index.html](http://www.mtc.edu/Admission/index.html) or by contacting the Admissions Office at 740-389-4636. The general admission process must be completed to be eligible to apply to the MA Program.

**Accreditation:** The MA Program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon recommendation of the Medical Assisting Education Review Board (MAERB). CAAHEP, 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763.

**Program/Class Schedule:** The MA program starts in the fall term and is designed for completion in two consecutive semesters for the certificate and four consecutive semesters for the MA-ATS degree. However, students may take arts and sciences courses toward the ATS degree prior to admission. Because of the sequencing of the MA technical classes, it will take two consecutive semesters to complete the program regardless of the amount of course work that has been completed prior to admission into the program. Once the certificate is completed, you may also continue taking courses for the ATS degree. All labs are hands-on in the campus classrooms.

**Practicum Sites:** Enrollment is limited for the MA Program. Students enrolled in the MA program must complete a 196 hour practicum assignment in the last 8-week session of the program in conjunction with online/classroom instruction prior to program completion. Practicum training is 25-40 hours per week (varies with each physician) during daytime hours and a student may be required to travel up to 60 miles to the site.

**Criminal Records Checks:** Acceptance into the MA program is contingent upon completion of a successful criminal background check. Accepted students must contact the Health Technologies Administrative Assistant to schedule an appointment. Details regarding the background check can be accessed by reviewing the Policy and Procedure section of your MA Student Handbook. Students must remain free of disqualifying convictions while enrolled in the program.

**Drug Screen:** Students in the MA program will be required to submit to drug screenings. Students may also be subject drug screenings for cause. Student will be contacted by Health Administrative Assistant to authorize drug screens. Unauthorized screens will be the financial responsible of the student. Details regarding the screenings can be viewed in the Policy and Procedure section of your MA Student Handbook.

**Educational Research Consent:** As part of their educational activities, students in the MA program will take part in phlebotomy (collection of blood samples). In addition to phlebotomy, MA students will be required to participate in bandaging, vital signs, EKGs, ear and eye irrigations and drops, application of gait belt, dressing changes, prep for surgery and patient positioning. All students will be required to sign an Educational Research Consent form. Details regarding this requirement can be viewed in the MA Student Handbook.

**Essential Program Requirements-Technical Standards:** All applicants must demonstrate the ability to perform certain intellectual, conceptual, behavioral, social, motor, and physical requirements within the framework of the standards of the practice of the profession. The applicant must review the Essential Program Requirements in this application packet and sign that they are able to meet these requirements. If an applicant has any concerns regarding their ability to perform these requirements, they may contact the MA Advisor. Applicants who feel they need special accommodation for physical, emotional, or learning disabilities must contact the Director of the Student Resource Center at 740-389-4636.
**Hepatitis B:** Students accepted into the program must complete their first Hepatitis B immunization injection prior to participating in their first technical laboratory course. Please refer to the Hepatitis B policy within the MA Student Handbook. Students will be required to complete the entire 3 part series of Hepatitis B.

**Application Deadline:** All requirements for admission must be completed and all documentation submitted to the Health Technologies Administrative Assistant. The first 15 qualified applicants will be admitted to the next available class with a formal letter of acceptance. Once all seats are confirmed in writing, any additional qualified applicants will be placed on a waiting list and will be accepted in accordance with current admission requirements.

**MA Program Admission:** To apply for acceptance into the Medical Assistant/Assisting Program, your application file must contain the following:

1. Completed Admission to MTC including application fee and receipt of official final high school transcript and any college transcripts to be considered for course transfer.
2. Minimum accumulative grade point average (GPA) of 2.0 in high school or college-level coursework [whichever is most recent].
3. Successful completion of the Basic Skills Assessment (Accuplacer) in reading, writing, and mathematics (arithmetic and elementary algebra) OR completion of the following courses
   a. Completion of ENG 0970 Reading Enrichment II
   b. Completion of ENG 0990 Preparation for College Writing II
   c. Completion of MTH 0910 Mathematical Literacy
4. Completed Medical Assisting application packet including program application, confidentiality agreement, essential program requirements form, educational research consent form, and criminal background disclosure form.
5. Completion of a successful criminal background check.
7. Applicant must read the Medical Assisting Student Handbook located on the program website.

In addition, students accepted into the program will also be required to complete medical/physical requirements prior to participating in the MA Practicum. Additional testing may also be required during the practicum by the affiliate site.

Please contact Peggy Smith, MA Program Director, at 740-386-4178 or smithp@mtc.edu, to schedule an initial advising appointment to review admissions requirements.

MARION TECHNICAL COLLEGE MEDICAL ASSISTING PROGRAM APPLICATION
(Page 1 of 2, must complete both pages)

Applicant’s Name: __________________________________________________________
Address:  _________________________________________________________________________
Phone #: __________________________________   Email address: __ _______________________
SS# or MTC ID#: _____________________________   Date of Birth:___________________________

Directions: Submit this application ONLY if you can answer YES to each of the following questions. Partial or incomplete application requirements will not be considered.

___  I have submitted the following general admission requirements to the MTC Office of Admission:
✓  MTC General Application for Admission (Indicate MA as your Major/Program)
✓  $20 general MTC application for admission fee
✓  Official final high school transcript and/or GED score results
✓  Official college transcript(s) from other colleges attended (If applicable, please list all colleges that you have requested to send transcripts to MTC).

___ I have completed high school or college course work with a GPA of 2.0 or higher at the last educational institution attended. Please list the last institution attended and the GPA achieved.

___ I have completed the reading requirement through: (check appropriate route)
  ___ I have achieved a score of 79 or better on the Accuplacer Reading Skills Assessment OR
  ___ I have successfully completed ENG 0970 Reading Enrichment II OR
  ___ I have achieved a score of 18 or better on the Reading portion of the ACT
  ___ Transfer credit of a college level course from ______________________

___ I have completed the writing requirement through: (check appropriate route)
  ___ I have achieved a score of 86 or better on the Accuplacer Writing Skills Assessment OR
  ___ I have successfully completed ENG 0990 Preparation for College Writing II OR
  ___ I have achieved a score of 18 or better on the English portion of the ACT
  ___ Transfer credit of a college level course from ______________________

___ I have completed the algebra requirement through: (check appropriate route)
  ___ I have achieved a score of 30 or better on the Accuplacer Elementary Algebra Assessment OR
  ___ I have successfully completed MTH 0910 Mathematical Literacy OR
  ___ I have achieved a score of 19 or better on the Math portion of the ACT
  ___ Transfer credit of a college level course from ______________________

___ I have completed and submitted the following forms:
  ___ Confidentiality Agreement
  ___ Essential Program Requirements-Technical Standards
  ___ Educational Research Consent
  ___ Criminal Background Disclosure form

___ I have read and understand the MA student Handbook and agree to abide by the policies and requirements specified in the Handbook

___ I have received, read, and understand the Medical Assisting Competencies.

___ I understand I will need to successfully meet the following requirements to complete my program application requirements:
  ___ Criminal Background Check facilitated by Marion Technical College
  ___ Drug screen arranged by Marion Technical College
I agree to complete my first Hepatitis B immunization injection prior to my first technical laboratory course or submit a medical exemption from a physician.

I agree to complete medical/physical requirements prior to participating in the MA Practicum and any additional testing required during practicum by the affiliate site.

I wish to complete the Associate of Technical Studies degree after obtaining my Medical Assisting certificate.

I wish to enter the MA technical course sequence fall term in the year ______. I understand my formal acceptance into the MA Program is contingent upon a successful criminal background check and drug screen facilitated by Marion Technical College. The Certifying Board of the American Association of Medical Assistants reserves the right to deny admission to the Certified Medical Assistant examination if an individual has been convicted of a felony or has pled guilty to a felony.

I understand that if the MA courses are filled at the time that I submit this application, I will be placed on a waiting list and will be accepted into the MA courses when an opening is available.

I certify that the information that I have provided is true to the best of my knowledge. I understand that I am responsible for fulfilling all of the MA admission and medical requirements.

Applicant’s Signature

Date

Submit application packet to Darlene Lewis, Health Technologies Administrative Assistant, c/o Marion Technical College, 1467 Mt. Vernon Avenue, Marion, Ohio 43302

For office use only:

Application Accepted ___ Application denied ____ Yr/Term to graduate ____ Letter sent to student ___

Online MA application 2.27.17
Maintaining confidentiality, privacy, and security is a key principle in today's health care setting. The purpose is to promote trust in professional relationships between patient/family members and individuals working in the health care environment, facilitate truthful and complete disclosure of information by patients, and protect patients, health care providers, and health care facilities from harm by preventing disclosure of information. Some information may be harmful to an individual's reputation, personal relationships or employment.

**Confidentiality** carries the responsibility for limiting disclosure of private matters. It includes the responsibility to use, disclose, or release such information only with the knowledge and consent of the individual. **Privacy** is the right of an individual to be left alone. It includes freedom from observation or intrusion into one’s private affairs and the right to maintain control over certain personal and health information. **Security** includes physical and electronic protection of the integrity, availability, and confidentiality of computer-based information and the resources used to enter, store, process, and communicate it; and the means to control access and protect information from accidental or intentional disclosure.

Confidential information includes but is not limited to: patient information, medical records, hospital/medical office information, pharmacy, physician information, employee records, and any situation which may be encountered in the course of your clinical/practicum experience and on campus. Maintaining confidentiality means to share information only with other healthcare professionals who have a “need to know” the information to provide proper healthcare for that patient and/or to conduct business within the health care setting. Obtaining and sharing information in which there is not a “need to know” is a violation of confidentiality. Sharing any information about your clinical practicum site or staff is a breach of confidentiality. To insure confidentiality, privacy, and security, cell phone usage is not permitted during observation hours or while in any professional practice experience.

Information that is a benefit to the learning experience may be shared with an instructor or other students as part of a classroom assignment. Information must exclude patient identifiers/confidential information. As part of a learning experience, this would be considered a legitimate “need to know”. Sharing this information outside of class is a breach of confidentiality.

A common way in which information is shared unnecessarily is through casual conversation. Sometimes a patient or a situation is very interesting and information is shared with one’s own family, friends, or co-workers who are not involved with that patient. Simply mentioning that you saw an individual in a healthcare setting is considered a breach of confidentiality. Other times, information is shared inadvertently. Two employees, both needing to know information about a patient, discuss the case in the elevator or in the cafeteria, and a visitor overhears the information. This illustrates why it is imperative to limit clinical discussions to non-public areas.

Records such as any part of a patient’s chart, are not to be read by individuals other than those having a “need to know”. Retrieving information from a computer also falls into this category. A "need to know" refers specifically to work needs. Looking up lab results for a friend or a family member is not acceptable "need to know". Friends and family need to learn of their lab data results from the ordering physician.

**Agreement requiring student signature:** I, ___________________________________have read the above information regarding confidentiality, privacy, and security and I understand the importance of keeping all information I encounter during observation or a professional practice experience in confidence. I agree to maintain confidentiality in the healthcare site and will not divulge any healthcare information outside the healthcare site. I will not access or try to access patient or healthcare information without the approval of the professional practice site. I understand that cell phones are not permitted during observations or a professional practice experience. I will not remove records, papers, medications or specimens from the healthcare site without permission. I will not take notes of any confidential information and remove it from the healthcare site. I agree that I will not take pictures of patients or of confidential information. I agree to use caution when discussing
confidential matters in the healthcare site to avoid being overheard in any public area. I understand that violating this policy may prohibit me from admission to any MTC allied health program, or result in my removal from the professional practice, a failing grade, and dismissal from the program. I will continue to maintain confidentiality, privacy, and security with any information I encounter during my learning experience after I have completed my courses at Marion Technical College.

Health Directors: Confidentiality Agreement 4.15.16
Marion Technical College  
Health Technologies Division  
Criminal Background Disclosure

I understand that prior to acceptance into a Health program, I will be subject to a background check including, but not limited to, an analysis of fingerprints and review of all prior criminal records. The criminal background check is facilitated by Marion Technical College and conducted by The Ohio Bureau of Criminal Investigation and Identification and the Federal Bureau of Investigation. Students with certain felony, misdemeanor, or drug-related arrests as specified in the Ohio Revised Code 109.572, will be ineligible for admission into the program.

I understand I am required to self-disclose any criminal background prior to admission into the program. Students with any criminal background may also be ineligible for admission. Potential employers may require criminal background checks as conditions for employment. Individuals who have been convicted of any crime, including felony, gross misdemeanor, misdemeanor, or drug-related arrests may be ineligible for employment. Therefore, completing an MTC program does not guarantee future employment.

I understand the submission of any false information to Marion Technical College shall be cause for immediate dismissal from any Health program.

Do you have any criminal background? ______ YES ______ NO

Medical Assisting Programs

Essential Program Requirements-Technical Standards for Medical Assisting

The Medical Assisting programs have a responsibility for the welfare of the patients treated or otherwise affected by students enrolled in the programs, and other students participating in the programs. Therefore, certain minimum essential program requirements have been established that must be met, with or without reasonable accommodation, in order to participate in the program and graduate.

Essential Program Requirements also called Technical Standards, are differentiated from academic standards and refer to intellectual, conceptual, behavioral, social, motor, and physical requirements necessary for the satisfactory completion of all aspects of the curriculum.

All applicants to a Medical Assisting program must review the Essential Program Requirements and sign a statement that they have read, understand, and can demonstrate the characteristics stated in the requirements. Applicants and students are evaluated based on their academic accomplishments as well as their physical and emotional demonstration and capacity to meet the full requirements of the program curriculum and to graduate effective healthcare professionals.

Applicants to the program who feel they need special accommodation for physical, emotional, or learning disabilities must contact the Director of the Student Resource Center, at 740-389-4636, extension 271.

In order to meet the program competencies, an applicant to the MA program must demonstrate the following characteristics:

**Intellectual/Conceptual**
Applicant must be able to exercise independent judgment. This includes, but not limited to, the following abilities:
- Apply mathematics to successfully complete assignments
- Define problems, analyze data, develop and implement solutions
- Reason and apply sound judgment
- Question logically, recognize and differentiate facts from opinion and illusion, and distinguish the logical from the illogical and relevant from irrelevant
- Participate fully in all classroom/laboratory exercises and practicum experiences in the program
- Understand and follow directions
- Apply learned skills and knowledge to new situations
- Communicate effectively in formal and colloquial English in person-to-person, telephone, written and electronic media

**Behavioral and Social**
Applicant must exhibit appropriate professional conduct that includes but is not limited to the following abilities:
- Fulfill commitments and be accountable for actions
- Self-direct, self-correct and be responsible for one’s own learning and professional development
- Deal with stress and maintain composure under pressure and time constraints
- Willingly follow directions
- Make decisions and prioritize tasks; work on multiple tasks simultaneously
- Work both independently and in cooperation with others
- Recognize emergency situations and react appropriately
- Maintain professional decorum and composure
- Demonstrate ethical behavior
Motor and Physical
In the Medical Assisting programs, certain physical and health requirements are necessary for the applicant to meet the standards of their program. If you have any concerns regarding your ability to perform these standards, please contact Medical Assisting Program Director at 740-389-4636. The applicant must meet the physical demands of the program, which include but are not limited to the following:

- Visual ability to successfully complete tasks within their program which may include: locate patient veins, read computer screens, instrument print-outs, patient documents, prescriptions, and accurately interpret color readings, cloudiness/turbidity, and texture.

- Gross and fine motor control to allow manipulation of equipment used within the program which may include: medical instrumentation, analytical equipment, microscopes, blood collection equipment, blood pressure equipment, manipulation of drug containers, and computer technology/office equipment.

- Physical mobility to perform tasks within the program which may include: move freely and quickly from one location to another in such areas as clinical laboratories, patient rooms, pharmacies, treatment rooms, and elevators, assist a patient with walking devices, carry medical equipment to a patient’s bedside and gain access to the patient in a variety of situations.

- Freedom from infectious diseases

- Ability to bend to remove environmental hazards or reagents from the floor

- Lift and move objects up to 25 pounds

- Possess a sense of touch and temperature discrimination

- Ability to hear audible sounds including use of stethoscopes and respond appropriately

- Ability to smell odors indicating unsafe conditions

- Ability to meet the attendance requirements as outlined in program handbook.

I hereby attest that I have read this form, understand the Essential Program Requirements-Technical Standards, and can demonstrate the characteristics stated with or without reasonable accommodations, consistent with the Americans with disabilities Act.

Marion Technical College Medical Assisting Programs  
Educational Research Consent Form  
(Invasive and Non-invasive)

You are being asked to take part in invasive and non-invasive educational research activities for the Medical Assisting program of Marion Technical College.

The purpose of the learning activities is to provide students with the theory and hands-on phlebotomy (PBT) training to perform venipunctures, skin punctures, and laboratory testing for the Medical Assisting program. During the phlebotomy procedures, you will be asked to give no more than 4 tubes (30 ml or 1 ounce) of blood at any given time. You may experience some discomfort from the needle when blood is drawn from your arm or finger. Risks associated with drawing blood from your arm or finger may include but not limited to, pain, bleeding, swelling, bruising, lightheadedness, and on rare occasion, infections. Risk of infection is slight since only sterile one-time equipment will be used.

In addition to the Phlebotomy training, Medical Assisting students will be required to participate in bandaging, vital signs, EKG’s, ear and eye irrigations and drops, application of gait belt, prep for surgery, dressing changes, and demonstration and participation of patient positioning. Risks associated with these procedures include but are not limited to: falls, blurred vision with eye drops/irrigation, ringing in the ears and dizziness with ear drops/irrigation, allergy to betadine. You may also experience tingling in the hands with blood pressure checks.

Remember, if you have any pertinent questions regarding the educational research activities, your rights, and whom to contact in the event of a research-related injury, to please see your instructor.

Your participation in the educational research activities is required. Hands-on training and participation is essential in your educational learning experience. If you do not wish to participate in the process, please see your advisor to discuss alternate career choices.

My signature below means that I have been informed about the invasive and non-invasive educational research activities and have had a chance to ask any questions. My signature below also indicates that I consent to the retrieval and use of my blood sample strictly for educational purposes and only for the duration of my program.
