Get to know campus.

Getting to know MTC will help you become more familiar, comfortable and successful at Marion Technical College by introducing you to various campus services, procedures and contacts. Attending this orientation will help you get off to a great start at MTC and hopefully answer your questions as the big “start-of-classes” day approaches.

We hope you are able to join us for this important program. If you are unable to attend and would like an orientation overview, contact us using the information on the back of this brochure.

Orientation will:

- introduce you to faculty, staff and other students;
- give you success tips;
- provide a tour of campus to learn where your classes meet, where to get a student ID, and where to buy books;
- provide an opportunity for you to meet other students in your area of study.
